General Fund Revenue

All revenue that is not required to be reported as program revenue. All taxes, even those that are levied for specific purpose, are general revenues and should be reported by type of tax.

Business-Type Activities

One of two classes of activities reported in the government-wide financial statements. Business-type activities are financed in whole or in part by fees charged to external parties for goods and services. These activities are normally reported in enterprise funds. The city currently has two business-type funds- The Water and Sewer Fund and The Electric Fund.

Powell Bill Revenue

Powell Bill allocations are made to incorporated municipalities which establish their eligibility and qualify per North Carolina General Statute 136-41.1 through 136-41.4.

Government Activities

Activities generally financed through taxes, intergovernmental revenues and other non-exchange revenues.

FUND BALANCE QUESTIONS

- **What is fund balance?**
 - This is what governments call monies that have accumulated over the years that are set aside for future use. It is similar to a savings account that individuals have. Many people refer to this as the “Rainy Day Fund”.
- **Where did the money in fund balance come from?**
 - Budgets are done on an estimated basis. Whatever money is not spent each year automatically becomes part of fund balance.
- **Why does the City need fund balance?**
 - The Local Government Commission that monitors all governmental agencies in NC requires that at least two months of operating costs be kept in fund balance for solvency reasons related to debt service. The minimum amount that must be kept is equivalent to 16% or \$1.5 million for the City. In order to plan for unforeseen operational needs, it is necessary to keep more than the required minimum.
- **Does the City ever spend fund balance?**
 - Yes. Each year, the City spends a portion of the fund balance in the regular budget in order to meet the needs to operate and provide services. The goal is to maintain the fund balance at a constant level. However, in the past several years, the City has had to use more of the fund balance due to lack of total revenues.
- **How much is the City’s fund balance?**
 - The city’s available General Fund Balance is \$3,500,000, or 38%. This is in line with the state average. The chart below indicates a decline in the available fund balance over the past several years. The city is carefully monitoring the budget in order to stabilize revenues and expenses.
