Re: Fire Training 5/28/2021
Date: 5/20/2021

Neighbor of 1217 McBee Street,

On May 28, 2021 the Lincoln Fire Department will be conducting a live burn training session at 1217 McBee Street near your home. I want to make you aware of this in advance so you are not alarmed if you see Fire and other emergency services vehicles in the area. We will begin setting up in the early afternoon and begin our training evolutions around 4:30 PM. During this time McBee Street will be impassible from 1201 McBee down and around the curve that leads up to Pine Street. If you have any concerns or questions during the time leading up to this training please do not hesitate to call me at (980) 525-6888.

You will likely see smoke in the area during the evening, and the remains of the structure may smolder into the night. This is normal but often is alarming to neighbors in the area, as always if you have concerns after we leave the training site that evening you can contact us directly at the fire station (704) 736-8920, through Lincoln County Communications non-emergency line (704) 735-8202, or in an emergency dial 911.

Please know you are welcome to watch our training from a safe distance. We look forward to training on May 28th in your community.

Rusty L. Reynolds
Training Chief
Lincolnton Fire Department
