

NOTICE TO THE PUBLIC

The City of Lincolnton is working to update the water infrastructure around the court square. This work will be done intermittently over the months ahead.

Traffic patterns near the 100 block on East and West Main Street, along with Water St. and Pine St. may be affected during the work.

If your water needs to be turned off for a timeframe during any of this work, then City staff will provide advanced notification when possible. Please understand that any planned work may be impacted by unforeseen circumstances, such as weather or infrastructure-related emergencies. Access to your businesses will be maintained unless otherwise notified in advance.

Please visit our website at LincolntonNC.org for more information and updates as the work progresses.

We greatly appreciate your patience and understanding during this update!
